Did you know ...

The New Hire Reporting Program doesn't just aid in the collection of child support? It also aids in the detection of workers' compensation and unemployment insurance fraud.

"I was impressed by how quickly the department was able to make this happen. They are serious about workers' comp fraud and we fully support this effort." - **Dan Fazio, Washington Farm Bureau**

"Fraud in workers' compensation hurts us all. Organized Labor supports L&I's efforts to fight workers' comp fraud by employers, medical providers, and workers; you should help too."

- **Rick Bender, Washington State Labor Council**

"Using this system is easy. It is one way you can help control workers' compensation costs. We support the department's efforts to prevent fraud and abuse."

- **Don Brunell, Association of Washington Business**
